Harry Mitchell's EDITORIAL

No matter where you live, by my new and simple system of self-measurement I can give you as good a fit in a suit or overcoat as if I took your measure in person. I have the largest tailoring establishment in the world, and I absolutely guarantee to make clothes to your order for \$15.00, \$20.00 and \$25.00 that your local tailor would not charge you less than \$30.00, \$35.00 and \$40.00 for, and the like of which no ready-made store could furnish you at any price. I pay all express charges, guarantee perfect fit and satisfaction or return your money.

Write me a letter and tell me about the kind of clothes you are thinking of getting—don't be afraid to ask questions. By return mail I'll send you samples and self-measurement blanks, and make you the best suit or overcoat you ever put on.

Yours truly,
HARRY MITCHELL,

DISSOLVES REICHSTAG

GERMAN CHANCELLOR ENDS ITS EXISTENCE ON DEFEAT OF AN ARMY MEASURE.

TOOK HOUSE BY SURPRISE

DISSOLUTION MEANS A DIRECT ATTACK UPON THE POWERFUL CLERICAL PARTY.

Berlin, Dec. 14.—The existence of the reichstag was terminated suddenly in the afternoon amid scenes of considerable excitement, upon the defeat of the government's bill for a supplementary appropriation to support the troops in German Southwest Africa.

This action by the government, although foreshadowed several days ago, took the house by surprise, as dissolution means a direct attack upon the clerical party, which has grown into such intimate relations with the government that it frequently has been characterized as the governing party. The clericals have grown so strong in numbers and influential that political prophets asserted that Imperial Chancellor von Buelow never would venture to create a breach with the party. The tension between the government and the clericals has been growing since Director of the Colonial Office Dernburg, on Dec. 3, attacked the leader of the Center party, Herr Roeren, in the reichstag and showed that he had attempted unduly to influence the government's administrative measures in the colonies.

The expectation that the chancellor would speak and that it was possible that the government would be defeated and the immediate dissolution of parliament follow, filled the house.

Herr Spahn, the clerical leader, began the discussion of the supplementary budget, amounting to \$7,350,000 to meet the expenses of the war in German Southwest Africa (rejected by the appropriation committee Dec. 11), by reporting on behalf of the majority of the appropriation committee that it was their conviction that the number of German troops in that colony could be reduced to 2,500 men, although the government and general staff affirmed that the present garrison, numbering 12,000 men, could not be reduced below 8,000.

Would Withdraw Some Troops.

The chancellor replied that between now and Jan. 4, 1907, 4,000 men would be brought home, and that after Jan. 4 more troops would be recalled, according to the military necessities; but to reduce the garrison to 2,500 men would mean the loss of the southern part of the colony and would greatly endanger the central and northern parts, while German rule in Africa would be imperiled by a renewal of the insurrection in German Southwest Africa, which would spread naturally beyond the frontier.

After the speakers had been heard the situation seemed even more grave. Prince von Buelow then made a final appeal for the passage of the bill. He said he felt it to be his duty again at the last hour to call attention to the serious responsibility in the present vote. He declared it was not a question of a few millions more or less, but "whether we can hold our own colonies or not."

"The question is," he continued, "are we willing to jeopardize our respect in the eyes of the world, and our military, or not?"

The chancellor, in expectation of the refusal of the reichstag to accept the appropriation bill, had obtained Emperor William's consent to dissolve the house, as well as the assent of the federal council, which is required by the constitution.

The reading of the decree of dissolution was followed by an extraordinary scene, made up of tumultuous applause and disorder.

The wisdom of the government's course in dissolving the reichstag upon the question of the colonies, which has exhausted the patience of the people, is seriously doubted by cool-headed ministerialists.

ENDANGERS PEACE OF EUROPE.

German Crisis Watched With Interest in England.

London, Dec. 14.—The German crisis attracts unusual attention in the British press, less as a revolt of the reichstag against the colonial policy of the empire than as the culmination of long dissatisfaction with the extreme bureaucratic character of the system of government and a popular demand for ministers responsible to the people and the peoples' representatives. Interest is considered to pivot largely upon the strength and attitude of the Socialist party.

The elections will be watched in England with keenest interest, it being recognized that as a means of se-

curing a government majority an appeal may be made to the ideal of a spirited foreign policy. It is considered, furthermore, that such a development might cause some uneasiness in Europe, as endangering peace.

SEQUEL TO THE HARTJE CASE.

Negro Coachman Sent to Prison for Perjury.

Pittsburg, Dec. 14.—Clifford Hooe, the negro coachman convicted for perjury in connection with the deposition made by him before the Hartje divorce trial, was refused a new trial and sentenced by Judge Robert S. Fraser to pay a fine of \$50 and the costs of the court trial, and to imprisonment of six years in the Western penitentiary of Pennsylvania.

Almost immediately after the sentence was imposed Hooe was taken to the penitentiary.

Attorney J. Welford Holmes, one of Hooe's counsel, said that an appeal would be taken.

Attorneys for Augustus Hartje will at once take up the matter of an appeal to the superior court, which meets here in April, from the decision handed down by Judge Robert S. Fraser Wednesday in which a divorce was refused Hartje. The appeal will be based on the fact that the letters which figured in the suit were not proved forgeries.

TO EXTEND INVESTIGATION.

Commerce Commission to Broaden Scope of Car Shortage Inquiry.

Washington, Dec. 14.—The interstate commerce commission will extend the proposed investigation into the apparent shortage of cars which begins at Minneapolis Dec. 17 to Kansas City, St. Louis and Chicago. For some time the commission has had agents in the field gathering information on the subject and in addition numerous letters have been received from persons who have suffered from the shortage. The complaint of shortage it is said at the commission is not necessarily based on discrimination by the railroads, although this may be the case in some instances, but on delays in the dispatch and movement of trains and on the part of shippers in loading and consignees in unloading the freight.

Commissioner Lane has left for Minneapolis where hearings will be held beginning Dec. 17 and Commissioner Prouty will conduct similar investigations at St. Louis and Kansas City on Dec. 18 and Dec. 20, respectively.

KING OSCAR VERY ILL

AGED RULER OF SWEDEN SUFFERING FROM AN ATTACK OF HEART DISEASE.

Stockholm, Dec. 14.—Considerable alarm has been occasioned the Swedish people by a statement that King Oscar is seriously ill, that all the members of the family have assembled at the palace and that the crown prince, Gustavus Adolphus, has been summoned hurriedly from Berlin. It appears that King Oscar has been ailing for some days past. His indisposition was not regarded as serious until Wednesday, when he developed symptoms of heart failure. His heart has been affected for the past three years and in the fear that because of his great age the present attack might prove fatal, four doctors have been in attendance.

The king slept fairly well Wednesday night and was better Thursday morning. But towards afternoon his condition again became alarming. At 9 p. m., however, the Associated Press learned that the king had had some further sleep and that his doctors were hopeful of a rally.

The crown prince is expected to arrive here soon.

The bulletin just issued says that the king's condition is tolerably satisfactory. The action of the heart is improved, although the pulse is irregular. His temperature is given at 101.

STATE'S CONSENT NEEDED.

Minnesota May Block New Issue of Great Northern Stock.

St. Paul, Dec. 14.—President Hill's proposed issuance of \$60,000,000 in new stock to the shareholders of the Great Northern Railway company may be sidetracked for the time being.

Attorney General E. T. Young, in answer to questions regarding the contemplated issue of new stock, issued the following statement:

"In my opinion there is no doubt but that under a proper interpretation of the law as it now stands no new stock can be issued by a domestic railway company without obtaining the consent of the state, through the railway commission.

"Before such consent can be given the commission must give a public hearing on the question, in which hearing the purpose for which the money is to be used and the necessity for the new issue of stock must be fully shown."

TO WITHDRAW ORDER

PRESIDENT ROOSEVELT DECIDES TO REVOKE DECREE ON SIMPLIFIED SPELLING.

TO RETURN TO OLD STYLE

BECAUSE THE LOWER HOUSE OF CONGRESS DISAPPROVED OF THE REFORM.

Washington, Dec. 14.—President Roosevelt will withdraw his simplified spelling order to the house printer and hereafter all documents from the executive departments will again be printed in the old fashioned style.

Representative Landis of the joint committee on spelling conferred with the president, who said he did not wish to have spelling overshadow matters of great importance and expressed a willingness to revoke his order for the new spelling in case the house of representatives should go on record as opposing the system. Accordingly Mr. Landis introduced the following resolution in the house:

"Resolved, That it is the sense of the house of representatives that hereafter in presenting reports, documents or other publications authorized by law, ordered by congress or emanating from the executive departments, their bureaus or branches and independent offices of the government, the government printing office should observe and adhere to the standard of orthography prescribed in generally accepted dictionaries of the English language."

The measure was passed without a dissenting vote, although Mr. Gillett (Mass.), who made a fight for simplified spelling before the house committee on appropriations, explained that he did not wish to give the impression that he had changed his mind.

The system of reform spelling was put into effect by the president during the recess of congress, and all public documents supplied to the executive departments have been printed in the simplified way. These documents have been pouring in on congress ever since the opening day, much to the dissatisfaction of most of the members. As a result the government printing office was using two forms of spelling in public printing. This caused a confusion and comment unfavorable to the reform and finally was made an issue between the legislative and executive departments, the judicial department having previously frowned upon the president's order.

RECEIVES ITS FINAL QUIETUS.

Simplified Spelling Knocked Out by the House.

Washington, Dec. 14.—Simplified spelling received a final quietus in the house. The subject has been under more or less continuous discussion in the house and in committee ever since the convening of the present congress, but it was brought to a sudden termination by the adoption of a resolution favoring the return to the old standard of orthography just before the house adjourned at 5:05 p. m. It was understood that this action had been taken as the result of an interview with the president in which he had said that if the house should go on record against the new spelling he would abandon his effort in that direction. The house was prompt in meeting this condition and the resolution was adopted by a unanimous vote. The house also reached an agreement by which it looks as though there might be a vote on the much mooted question of an increase in salaries of congressmen, cabinet increase, etc. Mr. Littauer sought to have the question taken up, but Mr. Underwood objected at this

stage of the proceeding. He said, however, that he would agree to consider action at the conclusion of the reading of the bill and when it shall be reported to the house from the committee of the whole.

During the morning hour in the house several resolutions were passed, one aimed at the lumber trust and calling upon the secretary of commerce and labor to investigate the high prices now prevailing in lumber, and another calling upon the secretary of the interior for a detailed description of the coal lands withdrawn from public entry since July 1, 1906.

DUBOIS TALKS ON MORMONISM.

Idaho Senator Also Arraigns President Roosevelt.

Washington, Dec. 14.—The senate listened to the second speech which has been made this session against the continuance of Reed Smoot as senator from Utah. It was delivered by Senator Dubois of Idaho, who after reviewing in detail the workings of the Mormon church and Mr. Smoot's prominent connection therewith, concluded with the charge that President Roosevelt has used the weight of his administration to assist the Republican Mormon vote in the last election.

A bill was passed proposing regulations for vessels to prevent collision at sea. Adjournment was taken to 4 o'clock until Monday.

Indian Territory Bank Robbed.

Muskogee, I. T., Dec. 14.—News has just reached here of the robbery of the Bank of Morris, at Morris, I. T., thirty miles west of Muskogee. The safe was blown and \$3,000 secured. The robbers escaped.

TRAVELING BEAUTY SHOW.

Thirty-three Oregon Belles to Call on President Roosevelt.

President Roosevelt will be visited early in the spring by thirty-three of the handsomest women of Oregon, gathered from the thirty-three counties, one from each, says a Washington special to the New York World. The beauty show will visit the Jamestown exposition to advertise their state and on the way will stop in Washington and call on the president. Senator Fulton recently introduced Philip S. Bates of Portland to President Roosevelt, and Mr. Bates told the president of the plan. The president said that nothing would give him more pleasure than to meet the ladies.

"The Oregon apples are the finest and largest in the world," said Senator Fulton, "but the peaches we grow out there are just the sweetest to be found anywhere."

Senator Fulton married an Oregon lady.

THE DEVILFISH.

Its Ability to Change Its Own and the Water's Color.

"I was lying on a rock watching the movements of some land crabs which kept retreating from the water as the tide rose, when suddenly a crab dashed frantically from the water, and out after it galloped—there is no other word for it—a devilfish nearly two feet across," writes an observer from Avalon, Cal. "The animal continued the chase a short distance, lifting its tentacles in the air in a sort of overhead motion; then, finding pursuit hopeless, it withdrew with a peculiarly unpleasant, writhing, giddling motion characteristic of these animals. Upon reaching the water it stationed itself just at the edge, so mimicking the color of the bottom that when I glanced away and looked suddenly back I could not at once distinguish it. This devilfish had the appearance of a cat watching for mice, and when a crab was seen it would shoot out a long, attenuated tentacle and attempt to seize it. By carefully insinuating my way to the water's edge I quickly grasped the specimen and after a short struggle tore it from the rocks and secured it.

"At various times I had from three to five devilfishes in an inclosure where I could watch them change color and test their strength. In confinement, if the tank bottom was dark, they assumed various tints, generally a dark reddish brown, but the largest one was a tigerlike creature, about three feet across, with a ground of livid white covered with black or dark gray blotches, giving it a truly fiendish appearance, especially as the eyes were conspicuous and appeared to emit lambent gleams. The change of color was marvelous in its rapidity. In a special tank in which two of these prisoners were confined they occupied the corners, facing outward, with arms either coiled under or above them. At any offensive movement on my part, presenting my hand under water, the color scheme would change. A blush appeared to pass over the entire surface, and in a large squid I can only compare it to heat lightning—a rapid and continued series of flushing and paling, from deep brick red to gray.

"It was very evident that the animals differed much in pugnacity. Some did not resent my touching them; others merely threw a tentacle in my direction, while one never touched me, but directed its siphon at my hand under water and sent a violent current in that direction, apparently endeavoring to blow my hand away. It was fascinating to observe the range this water gun had and how by seeming intuition the devilfish could direct it at my hand as I slowly moved it about while attempting to attract the animal's attention in an opposite direction."

Strawberries For Christmas.

Some interesting experiments in strawberry culture are reported from the truck farming districts of the southern states, says the Seattle Post-Intelligencer. The most recent results are announced from a small valley in Tennessee. There the fruit growers have successfully produced a second crop of strawberries which equals the first of the season. The work has been accomplished through cultivating the beds and forcing the plants into bearing for the second time every year. As a result the New York markets are to be supplied with choice berries for the holidays. The innovation promises to make a big difference in the demand for cranberries and other fruits.

"Trapdoor" Hats For Loot.

"Trapdoor" hats are the latest devices used by women shoplifters to aid them in stealing from the big downtown department stores, says a Cleveland (O.) dispatch to the D. Lath Herald. The other day two women who wore large hats entered a store and were spotted as shoplifters by the police. One of the women leaned over a counter, picked up a silver comb and shoved it through a trapdoor in her hat, fitted with springs so it could close securely. The women were arrested, and it was found that the hats contained a number of stolen articles. The women, who were well dressed, gave fictitious names to the police.

PRIZES ARE AWARDED

School Contest in Grain Raising is Closed And Prizes Have Been Awarded

The contest in grain growing inaugurated by the state school of agriculture through the county superintendent has been closed and the prizes awarded. While there were plots planted to small grains there were no contestants entered the products. In corn there were several contestants. The first prize was awarded Andrew Kapple, of District No. 1, located on Crow Wing prairie. The second was won by Virgil H. Turner, of District No. 57, known as the Albert Fox district. The third prize went to Otto Johnson, District No. 29, known as the Kretch district. The prizes awarded were paid in cash, the first prize being \$3.00. Several farmers, since they found that the prizes were actually paid in cash, have expressed regret that they did not have their boys enter the contest. It is expected that the contest next year will be more widely participated in.

P. E. McCabe Reported to Have Dropped Dead Last Night—Hunting Him Or the Coroner

Some one who thought to have some sport at the expense of others telephoned to the Council saloon last night about 9 o'clock that the proprietor of that place, had dropped dead on Fifth street. The same message was evidently sent other places for inquiries began to pour in over the telephone from all directions. Mr. McCabe had left the saloon saying he was going to be absent that evening and no one knew where to look for him. Inquiry was also made as to the whereabouts of the coroner to see if he had been notified but Mr. Gibson could not be reached. Finally about 11 o'clock the Red Men closed their lodge meeting and Mr. McCabe who had been attending it walked into his saloon. If some of those who been worrying about Mr. McCabe's whereabouts had got hold of the joker they would have made him go some.

MOTION MEETS WITH DENIAL.

Judge Refuses to Dismiss Indictments Against Schmitz and Ruef.

San Francisco, Dec. 14.—Oral motions of the attorneys for Mayor Schmitz and Abraham Ruef to strike from the file the five indictments found against them by the grand jury on the ground that Grand Juror Wallace E. Wise had been a trial juror within the year, was practically denied by Judge Dunne. He refused to allow the testimony respecting the allegation to be introduced. Attorney Ach, attorney for Mr. Ruef, offered to make proof that Juror Wise had served on the regular panel in Judge Lawler's court from Jan. 1 to July 9. Special Prosecutor Henny objected and the court sustained the objection acknowledging that he was practically denying the oral motion. Attorney Barrett for Mayor Schmitz repeated the offer of his colleague and the court took the same action.

The defense will now revert to the statutory ground set forth in their written motion to set aside the indictments and on Monday the grand juror will be questioned as to alleged bias and prejudice.

ROOM FILLED WITH GAS.

Lifeless Bodies of a Priest and His Housekeeper Found.

New York, Dec. 14.—The lifeless bodies of Father S. C. Quinn, formerly assistant pastor of St. Agnes church at Atlantic Highlands, N. J., and Miss Bridget Kiley, until recently housekeeper at the St. Agnes parish house, were found in a room at a boarding house on East Eighteenth street. The room was filled with gas, which was escaping from a half-open jet.

Michael Kiley identified the bodies at the morgue as that of his sister and Father Quinn.

The couple engaged a room at the boardinghouse on Tuesday last. They returned in the evening and were not seen again until their bodies were discovered.

The police found nothing in the room that would indicate whether or not the case was one of suicide.

Job Lot Order For Wives.

“Please send us twenty marriageable girls from your club. We can place them to their advantage.”

While these are not the exact words, they express the spirit of a proposition received by the Girls' Matrimonial club of Rock Falls from the Men's Want to Marry club of Nettinger, Ill., says a special dispatch from Sterling, Ill., to the Chicago Inter Ocean. The girls' club was organized to vote on whom each member should marry. They maintain they did not form the club with a view to furnishing wives by the wholesale and to ship them out of the state. Similar propositions have been received from other western states, although this is the first job lot order sent to the club.

DO NOT DOSE THE STOMACH

Cure Catarrh by Breathing Hyomei—Sold under Guarantee.

The only scientific and common sense way to treat catarrh of the nose and throat is by a local application that will kill the catarrhal germs.

Ordinary stomach dosing is worse than useless. Taking medicine into the stomach to cure catarrh of the head can have no good effect, and often leads to serious derangement of the digestive organs.

By breathing Hyomei three or four times daily through the neat pocket inhaler that comes with every outfit, its medicated, healing air penetrates to the most remote parts of the nose, throat, and lungs, searches out and kills all catarrhal germs, and soothes and heals any irritation in the mucous membrane.

H. P. Dunn & Co. have faith in the wonderful merit of Hyomei as a cure for catarrh as shown by the guarantee they give with every Hyomei outfit that the money will be refunded unless the treatment gives satisfaction.

A complete Hyomei outfit, consisting of a pocket inhaler, a bottle of Hyomei and a medicine dropper, costs but \$1, extra bottles of Hyomei, if needed, 50c. H. P. Dunn & Co. give their personal guarantee to refund the money if Hyomei does not relieve, so that you run no risk at all in buying this reliable remedy.

LITTLE WOOD

BEING CUT

There will be a Comparatively Small Cut of Cord Wood this Winter

MEN PREFER LUMBER CAMPS

Parties Having Stumpage Find it Hard to Get Men to Cut the Wood

Present indications are that the supply of red wood next season will be even shorter than this year. There is being practically no wood cut in this section so far this winter and there is little prospect that the situation will improve in that respect. Parties owning stumpage are unable to get wood cutters. Men are in demand in all lines of work and most men would rather work in a lumber or cedar camp of 15 to 50 men than go alone or with a companion or two and cut cord wood at the same wages. Consequently there has been much less wood cutting arranged for this season than usual. Wood finds a ready sale on the market here and those who do succeed in getting any cut are sure of a good price for it.

INDICTMENTS

AGAINST EIGHT

Grand Jury Reported Eight True Bills Thursday Night and Were Discharged

FIVE ARE IN CUSTODY

Other Indictments are Withheld Pending the Arrest of the Parties

The grand jury reported last night and were discharged. There were eight indictments found by them in addition to two which were reported that were found at last term. The indictments made public are:

State of Minnesota vs. Wm. Buchit, charged with manslaughter in the first degree. He has been arraigned and plead not guilty.

State of Minnesota vs. Edward Highsmith, assault with deadly weapon.

State of Minnesota vs. Harry Stowe, two indictments returned in May for selling liquor without a license.

State of Minnesota vs. Chas. H. Heath, charged with buying brass stolen from the Northern Pacific railway company.

State of Minnesota vs. Wm. Peterson. Peterson is the man who recently stole a valuable overcoat from the room of Gilbert Leffler at the National hotel.

It is thought that several others against whom indictments were found will be in custody by tomorrow.

VERDICT OF \$1

Jury Gave Defendant in Case of Ferguson vs. Mead that Amount This Morning

After being out all night the jury in the case of Ferguson vs. Mead gave the defendant a verdict of \$1 this forenoon. The case involved a car of potatoes and a promissory note. The plaintiff sued for an account alleged to be due and the defendant made a counter claim for damages for non performance of contract. The case of Johnson vs. Lichliter was on for trial today, the evidence and part of the arguments being completed at noon. The case was sent to the jury after which the case of the Mississippi Transportation Co. vs. the board of county commissioners of Crow Wing county came on for hearing. This is the damage case arising from the obstruction to navigation by the bridge erected north of Deerwood.

WOMEN'S WOES

Brainerd Women are Finding Relief at Last

It does seem that women have more than a fair share of the aches and pains that afflict humanity; they must keep up, must attend to duties in spite of constantly aching backs, or headaches, dizzy spells, bearing down pains; they must stoop over, when to stoop means torture. They must walk and bend and work with racking pains and may aches from kidney ills. Kidneys cause more suffering than any other organ of the body. Keep the kidneys well and health is easily maintained. Read of a remedy for kidneys only that helps and cures the kidneys and is endorsed by people you know.

Mrs. L. Peterson, wife of L. Peterson, janitor of the Columbian block, Brainerd, Minn., says: "I have given Doan's Kidney Pills a thorough trial and believe that this remedy is the most reliable preparation that exists for kidney trouble. I used to suffer from constant dull aching in the small of my back and loins and other symptoms which plainly indicated a disordered condition of the kidneys. I decided to try Doan's Kidney Pills and got a box at H. P. Dunn & Co's drug store. After using a few doses I felt better and in a few days the pain and other symptoms of kidney trouble disappeared. I believe Doan's Kidney Pills have given me a new lease of life, and am so confident that this remedy will do the same in all cases of kidney trouble that I am advising every sufferer I meet to use it."

For sale by all druggists. Price 50 cents. Foster Milburn Co., Buffalo, N. Y., sole agents for the U.S. Remember the name—Doan's—and take no other.

Farm, Home and Garden.

Short, pointed statements of methods and results in Crow Wing county are requested for this column. Address all communications to Farm Editor, Box 1519, Brainerd, Minn.

THE VALUE OF SCALES ON THE FARM

It would not be making too strong an assertion to say that a farmer needs scales just as much as a bookkeeper needs books. Yet we often find farms where the only scales to be found are those that the good housewife uses to weigh out her butter. A case recently came under our observation where a farmer had a load of hay to sell to his neighbor. Neither of them had scales that would weigh more than 150 pounds at once. When the seller had what he considered to be a ton of hay on his wagon he drove over to his neighbor and told him that that was what he estimated to be a ton, and the purchaser was satisfied.

The time for guess work is past. Those who get to the front in this age know just what they are buying and selling, eliminating all guess work. Many companies are manufacturing scales of all descriptions, from letter scales to those that will weigh a carload of grain or coal. There is as much competition in the scale business as in any other line, so that prices for these necessities are not exorbitant, and therefore the farmer of today has no excuse for being without adequate means of determining exactly the value of what he buys and sells.

Sawdust can usually be had for the hauling, and it makes excellent bedding for horses and cattle, as it absorbs all the liquid manure, thus keeping the stock clean, besides saving the best part of the manure, which amounts to a good deal in one winter where two or more horses are kept. It is cheaper than straw, and is much easier handled in the manure, especially if you want to haul it out in the fields in the winter. We have used it in this way with good success, as the hay was much heavier for a number of years after a top dressing of this kind on the ground when in wheat. Try it and see if your horses don't enjoy it better than lying on the hard floor, which spoils the horses' feet, as they get so dry and hard.

Benjamin Franklin said, "take care of the pence and the pounds will take care of themselves." This is just as true of the debts as of the money. It is the little accounts that usually swamp a man in the end. He runs an account of a dollar here and a dollar there. It will be easy to pay that next day he thinks, but first he knows the little bills are coming in from all sides. The creditors get to comparing notes and his credit is gone. If a man has five dollars in his pocket and owes three bills of a dollar each it is so easy to buy something with the five dollars and let the accounts accumulate. If you have been in the habit of running little bills just round them up and see how much you owe. You will be surprised at the amount. Then clean them up, even if you have to borrow money to do it. If you owe fifty dollars in a lump you will realize it and save accordingly. If you owe as much or more in dribbles you will not be apt to think it amounts to much, but it is what brings trouble. No man was ever known to go bankrupt with only one creditor.

Passed Examination Successfully. James Donahue, New Britain, Conn., writes: "I tried several kidney remedies, and was treated by our best physicians for diabetes, but did not improve until I took Foley's Kidney Cure. After the second bottle I showed improvement, and five bottles cured me completely. I have since passed a rigid examination for life insurance." Foley's Kidney Cure cures back-ache and all forms of kidney and bladder trouble. H. P. Dunn & Co. mwfdw

LETTER TO SANTA

Little East Brainerd Miss Sends Letter to Santa Claus care of H. F. Michael Co.

H. F. Michael is not built exactly according to the popular conception of the good Saint Nick, but a little maiden in East Brainerd evidently thinks he is in some way allied to that personage. She sent the following letter which was received by the H. F. Michael Co:

"Santa Claus, Brainerd, Minn., care of H. F. Michael Co. I want an express wagon, I want a pair scissors, I want some toys, I want a little black board, I want a winter coat, I want a winter bonnet, I want a little table and some little dishes, I want a big pin, I want a stove, I want two little aprons. I am six years old. I want a little sled for my doll, I want a little machine, I want a little bed, I want a little lounge, I want a little house, I want a little chair, I want a little watch.

BELLE."

Public Speaker Interrupted. Public speakers are frequently interrupted by people coughing. This would not happen if Foley's Honey and Tar were taken, as it cures coughs and colds and prevents pneumonia and consumption. The genuine contains no opiates and is in a yellow package. H. P. Easily Carried About

The advantages of a Perfection Oil Heater are realized when you want to heat some particular room or hallway in a hurry. Here's a heater that you can easily carry about; something you cannot do with your other stoves. Far superior to other oil heaters and a necessity in houses that are hard to heat. The

PERFECTION Oil Heater
(Equipped with Smokeless Device)

gives intense heat and is as easy to operate as a lamp. The wick cannot be turned too high or too low. The smokeless device prevents all smoke and smell. Brass oil fount beautifully embossed. Holds 4 quarts of oil and burns 9 hours. Ornamental as well as useful. Two finishes—nickel and japan. Every heater warranted.

If not at your dealer's write our nearest agency for descriptive circular.

The Rayo Lamp is unexcelled in light-giving power; absolutely safe; perfectly constructed, and is the best lamp for all-round household use. An ornament to every room. Made of brass throughout and nickel-plated. Every lamp warranted. If not at dealer's, write to nearest agency for descriptive circular.

QUIET REIGNS IN PARIS

TOTAL ABSENCE OF DRAMATIC INCIDENTS THAT HAD BEEN ANTICIPATED.

DISORDERS IN SOME CITIES

DEMONSTRATIONS AGAINST GOVERNMENT OFFICIALS OCCUR AT THREE PLACES.

Paris, Dec. 14.—The day has been marked by the total absence of any of the sensational or dramatic incidents anticipated in alarmist quarters in connection with the execution of the law of separation.

The parish priests everywhere celebrated mass in the presence of unusually large congregations, but the actions of the authorities were confined to noting infractions of the law and in citing the priests and vicars to appear before justices of the peace.

Everywhere legal notices have been served for the evacuation of the ecclesiastical residences, seminaries, etc. Several of these buildings were abandoned without further ado, but a majority of the prelates, while fully prepared to go, announced that they would not depart except under duress.

In many parishes, both in Paris and the interior, Catholic laymen came forward and spontaneously filed declarations for the holding of services in the designated churches during the coming year. If this practice is generally followed it will be a distinct victory for the government, relieving it of the possible necessity of closing the churches and throwing on the clergy the responsibility for the continuance of public worship.

In the meantime the cabinet is preparing measures to be introduced before parliament.

Clergy Will Lose Pensions.

The net result of the uncompromising attitude assumed by the vatican in this conflict with the French government seems to be that the clergy will lose its pensions, 35,300 of which have been granted and gazetted since the beginning of this year, that all aspirants to the priesthood will be compelled to perform military service, and that the taking over of the Episcopal mansions, rectories, seminaries, etc., by the state department, and the communes will occur immediately instead of in December, 1907.

According to well informed persons, the government intends to respond to the attitude taken by the vatican by submitting to parliament a proposition to settle definitely the situation of the church in France. Under this proposal the church will forfeit all benefits under the law of 1905, but it is to be provided with an opportunity of carrying on public worship in conformity to the common law. Church property is to be handed over immediately to the civil authorities on condition that it be reserved for purposes of worship and the positions of cardinals and bishops, as foreign officials, will be dealt with later in the event the government finds it necessary to do so.

Hostile demonstrations against government officials occurred at Nantes, Arras and Angers. The populace of the last named city attacked the police and a number of persons on either side were hurt. The bishop at Angers exhorted the people to be calm from a window of his residence, and when his word had had the desired result he invited the crowd of 5,000 to accompany him to the cathedral, where he pronounced the benediction.

MESSAGES OF SYMPATHY.

Enormous Numbers of Them Arriving at the Vatican.

Rome, Dec. 14.—Enormous numbers of telegrams expressing sympathy are arriving at the vatican, and the vatican officials are beginning to turn them over to the Osservatore Romano for publication.

This paper has published two such messages. One is from Archbishop Ireland to Papal Secretary of State Merry del Val begging him and the pope to accept his deepest sympathy in the great trials emanating from France, and expressing the sender's wish for the ultimate triumph of the church. The second message is from the Catholic church extension society of the United States, and is signed by Archbishops Quigley, Bourgade and Messmer. Commenting upon the two messages the pontiff is reported to have said:

"Far distant America is always the first to respond whenever religion, sentiment and patriotism are concerned."

The pope was gratified to learn from press dispatches that the incidents of the day in Paris had not been serious, but he expressed the deepest concern over the situation of thousands of parish priests, "innocent and humble victims of the conflict," who had been despoiled and turned out.

More Than Fulfills Requirements.

Rockland, Me., Dec. 14.—The battleship Kansas, from the works of the New York Shipbuilding company at Camden, N. J., more than fulfilled her contract speed requirements in her official screw standardization trial over the Owl's Head measured course. Her highest speed was 18.3 knots an hour.

STATE LIFE INSURANCE.

Wisconsin Legislative Committee Reports Adversely to Plan.

Madison, Wis., Dec. 14.—The majority report of the committee appointed by the last state senate to investigate the feasibility of establishing a state life insurance department in Wisconsin has completed its investigation, upon which it has been engaged for two years, and has filed its report with Governor Davidson. The committee is not in favor of having the state go into the life insurance business because it does not find it feasible at this time. The report is signed by Senators Julius E. Roehr and James A. Frear, while Senator Jacob Rummel, Socialist, whose party is trying to foster a number of state and municipal ownership projects in the legislature, dissents.

The committee has investigated the system of a number of foreign countries that supply life insurance through the government but found nothing to warrant the state going into the business at present.

In New Zealand, which is held up as a model by the advocates of insurance by governments and other public ownership projects, the committee learns that private companies do a greater business than the government. Of the total amount of insurance written, 60 per cent of it is controlled by private companies. This in spite of the fact that the government issues policies at low rates and that all the profits go back to the policyholders.

FEMALE SUFFRAGISTS ACTIVE.

Attempt to Hold Meeting Within Precincts of the House of Commons.

London, Dec. 14.—The female suffragists made another attempt in the evening to hold a meeting within the precincts of the house of commons and as a result five women and one man were arrested after an exciting fight with the police. The gathering was arranged by the women workers of Manchester and East London, who assembled in strong force. The police were taken unawares, and some women got within the entrance to the house before the object was detected. When the police finally barred the entrances the women tried to hold their meeting in the palace yard. A force of constables was then summoned to elect them. The women fought wildly, scratching and kicking the officers, but they were eventually compelled to give way. Those who persisted in resisting were carried screaming to the nearest police station. They were charged under the old law against attempting to hold a meeting within a mile of the house of parliament while the commons is in session.

ARGUMENTS ON DEMURRERS.

Begun in Federal Circuit Court at Minneapolis.

Minneapolis, Dec. 14.—Arguments on the demurrers interposed by the railways and grain firms charged with giving and receiving rebates in the indictments returned by the recent special federal grand jury have been begun before Judges William Lochren and Page Morris of the United States circuit court in the Minneapolis federal building. Counsel for the Omaha and Great Northern railways and for the Ames Brooks and McCaull Dismore Elevator companies and the Duluth Milling company were heard. Their main contention was that the Hepburn bill had repealed the provisions of the Elkins act under which the indictments had been found and that its peculiar phraseology was a complete bar to the present action, even though the offenses had been committed, as alleged.

The United States is represented by District Attorney Charles C. Houp and his assistants, J. M. Dickey and Paul Ewart.

COMMISSION COMPANY FAILS.

One of the Largest in the Twin Cities Suspends Business.

St. Paul, Dec. 14.—The Cummings Commission company, one of the largest and best known brokerage houses in the Twin Cities, has suspended business.

The following statement, sent out to all of the Cummings offices throughout this state, the Dakotas and as far north as Winnipeg, sums up briefly the cause of the failure:

"The systematic 'knocking' that has been going on against this company for some time has created such a condition of affairs that our attorneys advise us to close up all accounts so as to protect in a measure all alike. It will be a few days before we can give results."

A. J. Cummings, head of the concern, says the failure has come about simply because business has fallen off and heavy expenses have eaten up the resources of the company.

The Cummings Commission company is what is known as a private wire house, with a multitude of offices in the towns and cities of the Northwest, catering to the country speculative trade.

FOR APPLAUDING AN ACTOR.

Unidentified Newsboy Killed in a Chicago Theater.

Chicago, Dec. 14.—An unidentified newsboy was killed at night in the gallery of the Majestic theater for applauding a player on the stage whom George Dunraven, another spectator, was displeased with. Dunraven, who is a laborer, ordered the boy to cease his demonstration. When the lad refused Dunraven tried to hit him with an umbrella. The boy tried to dodge the blow and the point of the umbrella penetrated his brain, through his left eye, and he died while being removed from the theater. Dunraven was arrested.

When Hoops Began.

When were hoops "in" for the first time? According to Strutt, "trundling the hoop is a pastime of uncertain origin, but much in fashion at present" (1801). Dr. Murray's dictionary, incidentally remarking that the original hoop affected by boys was a barrel hoop, gives no English reference to it earlier than 1792. But the hoop was well known to ancient Greek and Roman boys, who called it a "trochus" (wheel). Their hoops were made of bronze, and representations of them on gems show that they were driven by a little hook with a wooden handle, very like the modern boy's hoop stick. This was called by the Greeks "elater" (driver) and by the Romans "clavis" (key). Sometimes the ancient hoop had bells attached to it, and modern London may be glad to be spared at least that exasperation.—London Chronicle.

GIVE HIM A CALL.

Pale, Weak, Anaemic Girls.

ANAEMIA or bloodlessness is indicated by paleness of the lips, the gums and eyelids, and is most frequently found in girls and young women.

Other symptoms are deficient appetite, impaired digestion, irritable temper, shortness of breath, dizziness, fainting, headache, easily fatigued, depression and despondency.

The blood is lacking in the life sustaining power which is necessary to the proper working of the bodily organs, and can only be restored by the use of such a blood-forming preparation as Dr. A. W. Chase's Nerve Pills.

On account of the way in which Dr. A. W. Chase's Nerve Pills enrich the blood and build up the system, they are beyond doubt the most effective treatment for anaemia and similar wasting disease that was ever compounded. Note your increase in weight while using it.

Dr. A. W. Chase's Nerve Pills, 50 cents a box, at all dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. Portrait and signature of Dr. A. W. Chase, the famous receipt book author, on every box.
